### Instructions

1. Cut six black circles using Standard Circles SM, No. 2 die template. Adhere three circles together to create the ant body and head. Cut thin strips for antenna and legs; adhere with Glue Dots. Color a pearl using Warm Grey marker and adhere with a Glue Dot.
2. Using Sweet Treats die, cut/emboss three watermelons from red cardstock. Color pearls with Warm Grey marker, then adhere "seeds" to watermelon.
3. Sand embossed watermelon, then ink edges with Emerald Green marker. Sand green edge and repeat the coloring process again to create dimension.
4. Using Glossy Accents, coat the watermelon "seeds", then set aside to dry.
5. Mat photos using black and white cardstock. Cut two strips of red cardstock, approximately 1-1/2" thick x 6" long, and position on layout.
6. Take coordinating buttons and ribbon and adhere to red cardstock stripe.
7. Using Quite Contrary Patterned Paper as base, adhere pieces using Zip Dry Paper Glue.
8. For finishing touches, add little hash marks under ant feet to show a walking trail. ♥
