Instructions

1. Cut two 2-15/16 x 3" and two 2-7/8 x 3" pieces of plastic.
2. Use a 4-1/2 x 4-1/2 piece of Cajun cardstock, and score sides at 1/2".
3. With square directly in front of you, create two flaps on both the left and right sides along the scored line. You will be able to do this in four simple cuts (two on each side). Stop at the perpendicular scored line.
4. Adhere flaps along inside of box.
5. Score two double scalloped Just the Edge Cardstock Strips lengthwise. Fold at scores and cut into 3" pieces. Use Cocoa ink to distress paper.
6. Place adhesive on the inside edge of box and secure 2-15/16 x 3" piece of Plastic Paper. The 3" edge serves as the top edge of the votive.
7. Place adhesive on the next inside edge of box and secure 2-7/8" x 3" piece of Plastic Paper. Add scored double scalloped Just the Edge Cardstock to support Plastic Papers. Continue until all four sides of votive are completed.
8. Wrap tea light with another cardstock strip from the Just the Edge package and further embellish.
9. Cut out four leaves from Autumn Bliss patterned paper.
10. Embellish votive sides using Mystical Flourish Jewel Template and Tangerine Blast Jewels. ♥
