Project Plan

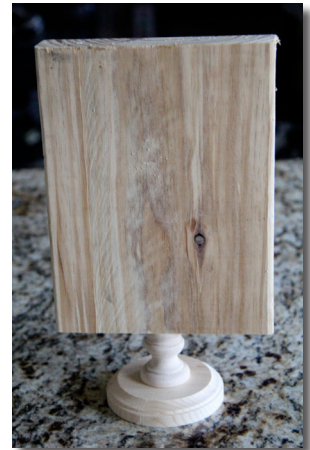

Cottage Photo Display

For this project you will need:

- a wooden craft circle
- small wooden candlestick
- wood finial
- small clothespin
- small wood appliqué
- Gorilla® Wood Glue
- 10" wooden board. If you don't own a saw, you can have the hardware store cut them for you.

- 1 Using Gorilla Wood Glue attach the small candlestick to the wooden circle. Clamp with a heavy object or tape, and let dry for 20 minutes.

- 2 Then, use the wood glue to attach the wooden board to the top of the candlestick. Again, clamp and let dry.

- 3 Now attach the wood appliqué and clothespin to the board using the wood glue. Clamp and let dry.

- 4 Add some wood glue to the top of the base and attach the finial. Once everything is dry, you are ready for paint.

- 5 Attach a cute picture, message or note and you are finished!
