

# vintage jewelry mirror

designed By Craft Marketing Connections

Online Project • February 2012 • [www.createanddecorate.com](http://www.createanddecorate.com)

Create & Decorate

## materials

For more product information, see sources below.

- Framed mirror, 28" x 33" oval
- Elmer's Craft Bond Ultra Stix All
- Vintage jewelry (necklaces, pins, pendants, rings, bracelets, earrings, brooches, beads, chains, etc.), enough pieces to cover frame\*

\*Flea markets, thrift shops, and rummage sales are great places to find old jewelry.

## instructions

Note: Finished size of piece is approximately 28" x 33".

1. Plan placement of items on frame. **Tips:** Place similar colors or shapes together; arrange similar and contrasting metals to form a pattern; group jewelry by owner to create a keepsake

mirror; or place dangling jewelry to extend beyond mirror.

2. Use Ultra Stix All to attach pieces to mirror, beginning with largest and moving to smallest pieces. **Note:** If you would like to use jewelry again, simply adhere pieces of felt to mirror frame and pin, clip, or loop jewelry through felt. Let dry at least 24 hours before hanging from sturdy support in wall.
