

Online project:  
*Moss Wall Art*

Designed by Diane D. Flowers for The Dow Chemical Company

"These moss-covered squares create a calm, rustic, forest-friendly wall hanging. Add some spring flowers if you like, or replace the nest with several twigs, branches, and dried color pods or pinecones for a unique decoration."

*Materials*

- The Dow Chemical Company STYROFOAM brand foam, 1" x 12" x 36" sheet, one
- Sheet moss, two bags
- Branch with bird's nest and greenery
- Newspaper, floral pins, low temperature hot glue gun and glue sticks, bark-wrapped wire, wire cutters, wax candle, serrated knife, pencil, ruler

For product information, see sources.

*Instructions*

**Note:** This design can be constructed using two 12" squares or one 12" x 24" rectangle.

1. Measure and mark a 12" x 24" rectangle, or two 12" squares, on the sheet of STYROFOAM. Rub the knife across the wax candle (for ease of cutting), and cut the marked piece or pieces.

2. For ease of cleanup, spread newspaper over the work surface. Place the moss sheets on top of the

rectangle or squares and insert floral pins into the sides to secure the moss sheets. If using two squares, attach them by adhering a small piece of foam to the backs of the two squares. Use floral pins and hot glue to secure the pieces together.

3. Secure the branch with bird's nest and greenery to the moss-covered sheets using floral pins and hot glue.

4. Cut a 3" piece of bark-wrapped wire and form it into a hanger shape. Insert the ends of the hanger into the top of the back of the squares. Use hot glue to secure the ends of the hanger. ✨
